

About WASH United

Preventable diarrhoea caused by a lack of access to sanitation and poor hygiene kills more children than malaria, measles and HIV/AIDS combined. Using the power of sports, superstars, interactive games, fun and positive communication, WASH United works to change attitudes around sanitation and hygiene (hand-washing with soap, menstrual hygiene management) and facilitate behaviour change at scale.

WASH United is a social impact organisation with headquarters in Berlin, Germany, that operates in South Asia, Sub-Saharan Africa and at the global level. Working through local partners, WASH United is currently active in Ethiopia, Ghana, Kenya, Lesotho, Tanzania, Uganda and India.

Our three lines of work:

- Innovative WASH¹ campaigns
- WASH in Schools Programmes
- Human Rights Work

The issues we focus on:

- Ending open defecation
- Hand-washing with soap
- Menstrual hygiene management

Our impact so far:

- > 300 million people reached through campaigns and media work
- > 100,000 children trained in youth sport teams and in schools
- > 400 WASH trainings in schools and youth sport teams
